

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 27, 1999 LB 880

SENATOR COORDSEN: Thank you, Senator Jones. Senator Schmitt, please.

SENATOR SCHMITT: Yes, Mr. President. I wasn't going to talk on this either. But I guess everybody needed to kill some time, so I thought I'd kill a little time, too. I did have the opportunity to go on the tour to Geneva with Senator Thompson. Geneva does definitely need some upgrading. I visited York. York is in pretty good shape, considering the age and everything that it is. But I think it could probably use some upgrading, too. It's been a long time since I've been to the boys training school at Kearney, but I think all of these facilities have been neglected over the years, but specifically with Geneva. The one housing facility at Geneva, if it was any other facility other than probably a state facility, the Fire Marshal's Office would have probably closed it by now. So I think we do need to deal with this issue. I think we need to deal with this issue rather rapidly, but I do think it probably needs to be funded by General Fund money rather than cigarette tax. But for whatever that is worth, I see Senator Chambers is having a discussion there with Senator Wehrbein and Senator Wickersham. I was going to yield him some time to carry on his conversation. I think maybe he's carrying that on off of the mike rather than on it. So I don't know if Senator Chambers really needs any more time on the mike, or whether they have reached some agreement there. There any other lights on? Two more lights on? I was going to say, I could have got into a discussion maybe with Senator Schimek, but I don't know what we would have really discussed, so I'll just yield the rest of my time back to the Chair. Thank you.

SENATOR COORDSEN: Thank you, Senator Schmitt. Senator Price, please.

SENATOR PRICE: Senator Coordsen and members of the body, to continue the conversation, I will yield my time to Senator Chambers.

SENATOR COORDSEN: Senator Chambers, would you care to use the time?
